

OPENLAND HELMET COVER WITH RIPSTOP RAIL

OPT-15025

The **Openland Helmet Cover with Rail Ripstop** is designed for a perfect fit on MICH-style helmets with **Picatinny side rails**, specifically for the latest models used by the Italian Army. Made from durable **Ripstop fabric**, this cover is ideal for tactical environments and field operations due to its high resistance and ability to withstand heavy use.

Key Features:

- **Compatibility:** Specifically designed for MICH-style helmets with **Picatinny side rails**, perfect for the latest Italian Army helmets.
- **Ripstop Fabric:** Made from **Ripstop fabric**, offering advanced protection against rips and damage, enhancing the product's durability.
- **Reinforced Front:** The front area is reinforced with double-layer fabric for added strength and protection.
- **Velcro Panels:** Velcro panels on the outer surface for easy attachment of accessories, patches, and devices.
- **Mimicry Loops and Grommets:** Loops for camouflage and grommets for securing cables or accessories.
- **Rear Pocket for Counterweight:** A convenient rear pocket with Velcro closure for attaching a counterweight, perfect for balancing the helmet.
- **Velcro ID and IR Panels:** Velcro panels for ID and IR patches on the outer part for nighttime or low-visibility operations.

Available Sizes: SM, L, XL to fit various helmet sizes. **Weight:** 8 g

The **Openland Helmet Cover with Rail Ripstop** is the ideal solution to enhance the functionality and customization of your helmet, providing durability, practicality, and full compatibility with modern military gear systems.
