

OPENLAND BALLISTIC GOGGLES GREY LENS

OPT-UM002

Designed for high-performance eye protection in tactical and professional environments, the Openland ballistic glasses with grey lens ensure superior safety and visual clarity. The smoke-tinted lenses effectively reduce glare while maintaining true color perception, providing sharp and comfortable vision even in bright light conditions.

Certifications:

- **ANSI Z87.1** – Complies with U.S. standards for high-velocity impact and chemical resistance.
- **CE EN166** – Meets European standards for eye protection against mechanical risks and flying particles.

Key Features:

- **High-resistance ballistic lenses:** Offer effective protection from impacts, debris, and fragments.
- **Lightweight ergonomic frame:** Wraparound design for all-day comfort and complete coverage.
- **Secure fit:** Flexible arms and padded contact points keep the glasses stable during dynamic movements.

Ideal for tactical operations, fieldwork, and high-risk environments, these glasses deliver dependable protection without compromising visual performance.
